

BALLISTIX FITNESS

GROUP BUYING EQUIPMENT GUIDE

Ballistix Fitness

As a local affiliate, we understand the equipment needs of a CrossFit affiliate. Good quality CrossFit equipment is hard to come by in South Africa.

Through much research and consultation with experts in the fields of Olympic weightlifting, Kettlebell & sandbag training as well as general CrossFitting, we have sourced the best quality equipment at the most affordable prices to the South African market.

We are confident enough to use our own equipment in our own facilities.

What is group buying?

Everyone understands that large gyms buying large amounts of equipment get different prices compared to retail prices. However, as individuals or small gyms that can't afford to purchase large quantities, these prices are seldom available. Group buying overcomes this obstacle and allows individuals, no matter how small their order, to be offered cheaper rates. If you are a Level 1 CrossFit trainer or CrossFit Affiliate, please enquire about further discounts.

How does group buying work?

You decide on which of the pre-determined dates you would like to make your order. Payments will need to be made prior to that date. Once the order deadline has been met, a large combined order will be placed with our manufacturers and all the equipment purchased together.

Equipment is made to order and roughly 8-12 weeks is expected till goods are delivered in South Africa. Once goods have been received, you will be notified and you can either collect or we can deliver them for you.

The order dates are displayed on our Equipment page of the Ballistix Fitness website.

Once you know what you are looking for and at what quantities, e-mail us at neil@ballistixfitness.com with your order and we will walk you through the process.

Is group buying for me?

If you are expecting equipment right away, can't wait too long to set up your facility and are prepared to pay full retail prices, then the answer is no.

If you are not too pressed for time and would like to take advantage of some major price discounts, then the answer is absolutely yes.
